<b>Independent Auditor's Report</b>	1-2
<b>Management's Discussion and Analysis</b>	3-10
<b>Basic Financial Statements</b>	
Statement of Net Position	11
Statement of Revenue, Expenses, and Changes in Net Position	12
Statement of Cash Flows	13
Notes to Financial Statements	14-38
<b>Required Supplemental Information</b>	39
Schedule of the Authority's Proportionate Share of the Net Pension Liability	40
Schedule of Pension Contributions	41
Schedule of the Authority's Proportionate Share of the Net OPEB Liability	42
Schedule of OPEB Contributions	43
Note to Required Supplemental Information	44
<b>Other Supplemental Information</b>	45
Federal Awards Supplemental Information:	
Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	46-47
Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance	48-49
Schedule of Expenditures of Federal Awards	50
Notes to Schedule of Expenditures of Federal Awards	51
Schedule of Findings and Questioned Costs	52
Passenger Facility Charges Supplemental Information:	
Report on Compliance for the Passenger Facility Charge Program and Report on Internal Control Over Compliance as Required by the <i>Passenger Facility Charge Audit Guide for Public Agencies</i>	53-54
Schedule of Passenger Facility Charges	55
Notes to Schedule of Passenger Facility Charges	56

## Independent Auditor's Report

To the Board of Commissioners  
Grand Junction Regional Airport Authority

### Report on the Financial Statements

We have audited the accompanying financial statements of Grand Junction Regional Airport Authority (the "Authority") as of and for the years ended December 31, 2019 and 2018 and the related notes to the financial statements, which collectively comprise the basic financial statements of the Authority.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of Grand Junction Regional Airport Authority as of December 31, 2019 and 2018 and the changes in its financial position and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As described in Note 2 to the financial statements, subsequent to year end, the COVID-19 pandemic has impacted the Authority's operations and has resulted in a severe decline in the Authority's activity. Our opinion is not modified with respect to this matter.

To the Board of Commissioners  
Grand Junction Regional Airport Authority

**Other Matters**

*Required Supplemental Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplemental information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Grand Junction Regional Airport Authority's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the schedule of passenger facility charges, as required by the *Passenger Facility Charge Audit Guide for Public Agencies*, are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The schedules of expenditures of federal awards and passenger facility charges are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal awards and passenger facility charges are fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated July 21, 2020 on our consideration of Grand Junction Regional Airport Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Grand Junction Regional Airport Authority's internal control over financial reporting and compliance.

July 21, 2020

### INTRODUCTION

Grand Junction Regional Airport, Colorado, Public Airport Authority was created in 1971 under the Public Airport Authority Act of 1965. The Grand Junction Regional Airport Authority (the "Authority") is composed of seven appointed members: three from Mesa County, three from the City of Grand Junction and one at-large selection. The term of each Commissioner of the Authority Board is four years; no member may serve more than two consecutive four-year terms. The Board of Commissioners selects and appoints an Executive Director who implements the policies established by the Board, manages the airport, and serves at the pleasure of the Board.

The Authority engages in business-type activities. These are activities that are intended to recover all or a significant portion of their costs through user fee charges to external parties for goods or services. The Authority reports its business-type activities in a single enterprise fund, meaning that its activities are operated and reported like a private-sector business. An enterprise fund uses the accrual basis of accounting, and accordingly, revenues are recognized when earned and expenses are recognized as incurred.

### GJT Description

The National Plan of Integrated Airport Systems classifies the Grand Junction Regional Airport (the "Airport" or "GJT") as a short-haul primary commercial service airport. These airports provide commercial airline service, mostly to destinations within 500 miles, in addition to general aviation services. The Grand Junction metropolitan area is classified as a non-hub commercial service market, as the Airport enplanes less than 0.05% of all commercial airline enplanements in the United States.

The Airport is located on approximately 2,800 acres of land and has two active runways and an air traffic control tower. The primary runway is Runway 11/29, which measures 10,501 feet long and 150 feet wide with a northwest-southeast orientation. Crosswind Runway 4/22 measures 5,501 feet long and 75 feet wide in a southwest/northeast orientation. The secondary runway is designed to facilitate the operations of smaller aircraft during crosswind conditions on Runway 11/29.

The passenger terminal building opened in 1982 and contains approximately 76,000 square feet of space and offers one airside concourse with three passenger boarding bridges. The terminal building accommodates passenger ticketing, baggage claim, passenger screening, concessions, and rental car facilities and public parking is available on site. In addition to the passenger terminal building, the Authority also provides cargo and general aviation facilities and has an aircraft rescue firefighting building.

### Location

Grand Junction is situated on the western slope of the Rocky Mountains in Mesa County, Colorado. The Airport and the City of Grand Junction are located between Denver and Salt Lake City, approximately 260 miles from each. The closest airports, which provide regularly scheduled commercial or regional jet service, are Aspen-Pitkin County Airport, Eagle County, and Montrose County Regional Airport.

### Air Traffic

As of December 31, 2019, GJT offered direct service to Dallas/Fort Worth, Denver, Las Vegas, Mesa, AZ, Phoenix, and Salt Lake City, and seasonal direct service to Los Angeles and Chicago. Air service is provided in GJT by Allegiant, American Airlines, Delta, Denver Air Connection, and United. As of December 31, 2018, GJT offered direct air service to Dallas/Fort Worth, Denver, Las Vegas, Phoenix, and Salt Lake City, and seasonal direct service to Los Angeles through five different commercial carriers.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the financial position and activity of the Authority provides an introduction and overview of the basic financial statements of the Authority as of and for the years ended December 31, 2019 and 2018. This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow this section.

#### Financial Highlights

In 2019, Allegiant added year-round twice-weekly service to Mesa, Arizona and United added a seasonal direct flight from GJT to Chicago weekly. In addition to these new destinations, air carriers up-gauged the size of aircraft flown to GJT and added additional flights. The Airport realized a 12% increase in passengers from 2018 to 2019 which resulted in a \$357,000 increase in operating revenues from 2018.

Operating revenues in 2018 exceeded budgeted revenues by \$235,000 and 2017 revenues by \$146,000. This increase was primarily related to non-passenger airline revenue from cargo and other itinerant operations at the airport. In 2018 the Airport served as a base for firefighting operations in the region and served over 300 diversions throughout the year compared to approximately 175 in 2017.

In 2019, the Authority completed a major terminal remodel project that included a new HVAC system, back-up generator, new escalators, and new office space for Authority staff. This project was funded by the 2016 refunded bonds and cost approximately \$5,775,000.

The Authority broke ground on a runway replacement project in 2018 and as of December 31, the Authority has ten (2019) and eight (2018) Airport Improvement Program (AIP) projects still in process with the FAA, primarily related to enabling projects for the runway replacement. These AIP projects are funded primarily by the Federal Aviation Administration. Capital assets increased over \$6,500,000 related to AIP capital projects from 2018 to 2019. Total assets increased over \$13,400,000 from 2017 to 2018 due to increases in capital grants receivable and capital assets.

The Authority began construction on an administration building in 2013 to house the Authority staff offices, however, construction was stopped in 2014. During 2019, after exhaustive efforts by the board to procure a public-private partnership to complete the build-out, or identify airport funds to complete construction, it was determined that the partially completed building would be demolished. Accumulated construction costs totaling \$4,092,316 were considered impaired and a loss was recognized in the year ended December 31, 2019.

In 2018 the Authority adopted Governmental Accounting Standards Board ("GASB") No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* which changes the accounting and presentation for the Authority's postemployment health benefits that are administered through the Colorado Public Employees' Retirement Association. Additional information related to the Authority's pension and other postemployment benefit plans can be found in Note 9 and Note 10.

The Authority also elected to adopt GASB No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period* which requires interest costs incurred during construction be expensed in the period in which the cost is incurred. The requirements of the statement are effective for reporting periods beginning after December 15, 2019; however, early adoption is encouraged and the Authority elected to implement this GASB in 2018. As a result, no interest was capitalized and added to the cost of capital assets construction in progress but was recognized as interest expense during the year.

#### Overview of the Financial Statements

The Authority's financial statements consist of its statement of net position; statement of revenues, expenses, and changes in net position; statement of cash flows and notes to the financial statements. The statement of net position presents information on the Authority's assets, deferred outflows, liabilities, deferred inflows, and net position. Over time, increases or decreases in net position serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating. The statement of revenues, expenses, and changes in net position present information showing how the Authority's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements. This report also includes required supplementary information for the Authority's pension and other postemployment benefit plan for the purpose of additional analysis.

These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the GASB.

## Grand Junction Regional Airport Authority

# Management's Discussion and Analysis

Year Ended December 31, 2019

### Summary of Revenues, Expenses, and Changes in Net Position

The following is a summary of the revenues, expenses, and changes in net position for the years ended December 31, 2019, 2018 and 2017.

	2019	2018	2017
Total operating revenues	\$6,863,913	\$6,506,646	\$6,360,576
Total non-operating revenues	2,016,461	1,941,478	1,808,815
Total revenues	8,880,374	8,448,124	8,169,391
Total operating expenses	8,815,254	8,774,636	8,447,618
Net non-operating expenses	4,696,104	650,029	1,468,896
Total expenses	13,511,358	9,424,665	9,916,514
Loss before capital contributions	(4,630,984)	(976,541)	(1,747,123)
Capital contributions	6,004,320	10,154,051	5,201,808
Increase in net position	\$1,373,336	\$9,177,510	\$3,454,685

The following is a summary of operating revenues for the years ended December 31, 2019, 2018 and 2017.

	2019	2018	2017
Aeronautical revenue			
Passenger airline revenue			
Passenger airline landing fees	\$632,143	\$549,237	\$528,794
Terminal rent	1,183,776	1,181,845	1,185,356
Other	128,216	113,722	102,575
Total passenger airline revenue	1,944,135	1,844,804	1,816,725
Non-passenger airline revenue			
Non-passenger landing fees	102,453	179,586	143,955
Cargo and hangar rentals	53,466	52,213	51,173
Fuel flowage fees and aviation fuel tax	752,110	697,084	629,287
Other	9,780	5,880	3,030
Total non-passenger airline revenue	917,809	934,763	827,445
<i>Total aeronautical revenue</i>	2,861,944	2,779,567	2,644,170
Non-aeronautical revenue			
Land and building leases	601,551	596,586	573,411
Terminal – restaurant and retail	170,591	142,064	125,230
Terminal - rent	180,686	199,259	255,550
Rental cars	1,306,055	1,270,226	1,217,503
Parking and ground transportation	1,663,556	1,442,888	1,476,492
Other	79,530	76,056	68,220
<i>Total non-aeronautical revenue</i>	4,001,969	3,727,079	3,716,406
<i>Total operating revenue</i>	\$6,863,913	\$6,506,646	\$6,360,576

Rates and charges for airport operations remained unchanged from 2017 to 2019 so changes in operating revenues were driven by activity and not changes in fees.

**Management’s Discussion and Analysis**

**Year Ended December 31, 2019**

Passenger airline revenue is primarily from terminal rent which is currently based on a fixed rates and charges model, therefore there was almost no change to terminal rent from 2017 to 2019. In 2019, the airlines flew larger aircraft and increased flight frequency compared to 2018. GJT received 434 additional landings in 2019 compared to 2018, an increase of almost 8%. As a result of the increased flights and landed weight, passenger airline landing fees increased almost \$83,000 from 2018. Overall passenger traffic remained flat from 2017 to 2018, so there was little change in passenger airline revenues in 2018.

Non-passenger airline revenue consists primarily of landing fees from non-passenger airline activity like cargo, and fuel flowage fees and taxes. Fuel flowage fees are collected for general aviation activity and fuel taxes are collected on all jet fuel sold at the airport. The decrease in non-passenger airline revenue from 2018 to 2019 is primarily related to a decrease in activity from the Airport’s main cargo airline provider and decreased activity related to firefighting operations that occurred in 2018. Non-passenger landing fees and fuel flowage fees increased 10.8% from 2017 to 2018. This was primarily the result of increased cargo deliveries in 2018 and increased landing fees from firefighting operations staged from the Airport. In the first half of 2018, the primary cargo carrier at the Airport started making two daily flights instead of just one flight which caused an increase in non-passenger landing fees and fuel flowage fees. They have since returned to their regular flight schedule.

Non-aeronautical revenue consists of some fixed rent charges and other variable revenues that are directly correlated to passenger traffic. With the 12% increase in passengers in 2019, non-aeronautical revenue was \$275,000 higher than 2018. Non-aeronautical revenue remained flat from 2017 to 2018 although there were some changes in the revenue sources. The decrease in terminal rent was related to a decrease in total space rented by the tenant. Rental car revenues increased from 2017 to 2018 due to a combination of increased rental days and higher average daily rates. Daily rates charged for diversion traffic tends to be higher than regular rates, and the Airport had almost twice as many diversions in 2018 as 2017.

The following is a summary of operating expenses for the years ended December 31, 2019, 2018 and 2017.

	2019	2018	2017
Personnel compensation and benefits	\$1,894,114	\$2,422,735	\$2,294,107
Communications and utilities	308,906	305,528	292,520
Supplies and materials	574,646	545,175	440,370
Contract services	601,889	578,406	547,622
Repairs & maintenance	584,486	390,626	349,878
Insurance	108,989	92,983	93,944
Depreciation	4,459,034	4,196,715	4,161,422
Other	283,190	242,468	267,755
<b>Total operating expenses</b>	<b>\$8,815,254</b>	<b>\$8,774,636</b>	<b>\$8,447,618</b>

The majority of the Airport’s operating expenses are fixed in nature, and do not fluctuate with increases and decreases in passenger traffic. The most notable changes from 2018 to 2019 were a decrease in personnel compensation and benefits of \$529,000, an increase in repairs and maintenance of \$194,000, and an increase in depreciation of \$262,000. The change in personnel costs was entirely related to the Airport’s proportionate share of pension expense which was a reduction of costs this year. Actual cash compensation paid was comparable to 2018. Repairs and maintenance cost increases were mostly related to repairs and improvements made to the terminal in conjunction with the terminal remodel project that were below the capitalization policy of the Airport. The Authority painted all existing bathroom tiles and partitions within the terminal which cost approximately \$115,000. The increase in depreciation expense was directly related to the terminal project and airfield projects completed in 2019.

The largest increases from 2017 to 2018 were in personnel compensation and benefits and supplies and materials. The increase in personnel compensation and benefits was related to hiring a new executive director in 2018 and other staffing changes in 2018 as well as changing insurance benefits. This resulted in an increase in personnel compensation and benefits of \$129,000. Supplies and materials increased \$105,000 due to the purchase of new office furniture and IT equipment in 2018. The Authority was in the process of remodeling office space for staff in 2018 and these purchases were below the capitalization threshold and therefore were expensed.

## Grand Junction Regional Airport Authority

# Management's Discussion and Analysis

Year Ended December 31, 2019

### Non-Operating Revenues and Expenses, Capital Grants and Capital Contributions

The following is a summary of non-operating revenues and expenses for the years ended December 31, 2019, 2018 and 2017.

	2019	2018	2017
Passenger facility charges	\$1,050,179	\$1,019,592	\$901,543
Interest income	225,138	197,674	187,301
Interest expense	(619,600)	(648,434)	(1,318,486)
Customer facility charges	741,144	724,212	719,971
Capital contributions	6,004,320	10,154,051	5,201,808
Other	(4,076,504)	(1,595)	(150,410)
Total non-operating revenue (expense), net	\$3,324,677	\$11,445,500	\$5,541,727

The most notable changes in non-operating revenue and expense from 2017 to 2019 are the increases and decreases in capital contributions from the FAA. These contributions represent grant revenue towards the Authority's AIP projects, primarily focused on the new replacement runway projects. Grant revenue will fluctuate year to year depending on the projects awarded and the amount of construction completed.

The decrease in interest expense from 2017 to 2019 is due to the payoff of the State Infrastructure Bond in 2019 and scheduled annual debt service payments.

### Summary of Net Position

The following is a summary of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position as of December 31, 2019, 2018 and 2017:

	2019	2018	2017
Current assets	\$10,642,105	\$13,872,991	\$9,727,950
Restricted assets	8,287,328	11,890,978	11,690,440
Capital assets, net	72,192,203	69,407,202	60,304,804
Total assets	91,121,636	95,171,171	81,723,194
Deferred outflows of resources	719,284	413,509	847,415
Total assets and deferred outflows of resources	\$91,840,920	\$95,584,680	\$82,570,609
Current liabilities	\$4,478,598	\$8,467,783	\$3,371,417
Non-current liabilities	21,621,750	22,294,813	23,699,175
Total liabilities	26,100,348	30,762,596	27,070,592
Deferred inflows of resources	64,023	518,871	165,052
Net position			
Total net position	65,676,549	64,303,213	55,334,965
Total liabilities, deferred inflows of resources and net position	\$91,840,920	\$95,584,680	\$82,570,609

### Current Assets

Current assets decreased by approximately \$3,231,000 from 2018 to 2019. The decrease was primarily related to the decrease in grants receivable for AIP projects of \$1,858,000 and a decrease in unrestricted cash of \$1,352,000. The balance of grants receivable fluctuates based on the amount of work being completed and the timing of receiving reimbursements from the FAA. The decrease in cash from 2018 to 2019 is primarily related to the terminal improvement project that was paid with bond project funds and unrestricted cash.

The increase in current assets from 2017 to 2018 was related to the increase in the accounts receivable for the FAA for AIP project grants. Grants receivable as of December 31, 2018 was approximately \$5,802,000 higher than grants receivable as of December 31, 2017.

# Grand Junction Regional Airport Authority

## Management's Discussion and Analysis

Year Ended December 31, 2019

### Capital Assets

In 2019, the Authority completed a \$5,775,000 terminal improvement project, completed work on five multi-year AIP projects on the airfield totaling \$10,991,000, and started two more AIP projects that incurred approximately \$3,963,000. As of December 31, 2019, the Authority recognized an impairment of \$4,092,316 associated with an incomplete construction project. Refer to note 4 for a full summary of capital assets and additional information on asset impairments.

During 2018, the Authority had a net increase in construction in progress of approximately \$7,000,000. The AIP provides grants to public agencies for the planning and development of public-use airports. The Authority completed the East Apron replacement and the passenger boarding bridge projects during 2018 with a final cost of approximately \$4,661,595 and \$1,550,962, respectively. The following table illustrates the project costs incurred and the balance of construction in progress as of and for the year ended December 31, 2018:

### Current Liabilities

The change in current liabilities is directly related to the change in capital payables. Accounts payable decreased \$3,835,000 from 2018 to 2019 due to a slower winter construction season. Current liabilities increased from 2017 to 2018 related to capital assets payable related to projects totaling \$5,600,000.

### Long-Term Debt

Capital acquisitions are funded using a variety of financing mechanisms, including federal and state grants, passenger facility charges, public debt issues, and airport operating revenues. During 2016 the Authority refunded the 2007 Revenue Bonds with the 2016 Revenue Bonds resulting in a \$9,000,000 project fund. As of December 31, the balance due on the 2016 Bonds was \$17,650,000 (2019) and \$18,345,000 (2018). In addition, the Authority had approximately \$230,000 outstanding on a note payable to the Colorado State Infrastructure Bank to finance construction of a rental car parking lot and rental car service area as of December 31, 2018. The note was fully repaid in 2019.

### Deferred Outflows and Deferred Inflows of Resources

Changes in deferred outflows and deferred inflows are related to the changes in the Authority's proportionate share of the pension and OPEB liability for the cost-sharing plan that the Authority participates in. See Note 9 and Note 10 for additional information on the calculation of these amounts.

### Budgetary Highlights

The Authority establishes its annual operating budget using the modified cash basis which is different than the basis of accounting used to present the Authority's financial statements. Cash outflows for debt principle payments and capital asset purchases that are recorded as changes in the statement of net position are included in the operating budget for the Authority, and no amount is budgeted for non-cash adjustments to the pension and OPEB liability that are recognized in personnel costs, depreciation, and amortization of the bond premium.

	2019 Actual	2019 Budget	Budget to Actual Variance
Operating Revenues			
Aeronautical revenue	\$2,861,944	\$2,615,000	\$246,944
Non-aeronautical revenue	4,001,969	3,463,400	538,569
Total Operating Revenue	6,863,913	6,078,400	785,513
Operating Expenses Excluding Depreciation	4,356,220	4,725,850	(369,630)
Net Operating Revenues Over (Under) Operating Expense	\$2,507,693	\$1,352,550	\$1,155,143

As a result of the increase in passenger traffic in 2019, operating revenues exceeded budget by \$785,500 or 13%. Passenger airline revenue accounted for \$121,000 of the budget variance, non-passenger airline revenue was \$126,000 ahead of budget, and non-aeronautical revenue was \$538,500 above budgeted expectations led by parking revenue and rental car revenue.

## Grand Junction Regional Airport Authority

# Management's Discussion and Analysis

### Year Ended December 31, 2019

Operating expenses were below budget in 2019, with the majority of the budget variance being related to personnel compensation and benefits.

	2018 Actual	2018 Budget	Budget to Actual Variance
Operating Revenues			
Aeronautical revenue	\$2,779,567	\$2,645,400	\$134,167
Non-aeronautical revenue	3,727,079	3,626,000	101,079
Total Operating Revenue	6,506,646	6,271,400	235,246
Operating Expenses Excluding Depreciation	4,577,923	4,734,155	(156,232)
Net Operating Revenues Over (Under) Operating Expense	\$1,928,723	\$1,537,245	\$391,478

Operating revenue from both aeronautical and non-aeronautical sources exceeded budget in 2018. Aeronautical revenue exceeded budget primarily due to the increased activity in Cargo and the firefighting operations described above. Non-aeronautical revenue performance was led by rental car revenues and restaurant and retail sales.

Operating expenses were below budget in a number of categories in 2018, but the primary areas that were below budget were contract services and other expenses including marketing and air service development.

	2017 Actual	2017 Budget	Budget to Actual Variance
Operating Revenues			
Aeronautical revenue	\$2,644,170	\$2,649,000	\$(4,830)
Non-aeronautical revenue	3,716,406	3,239,700	476,706
Total Operating Revenue	6,360,576	5,888,700	471,876
Operating Expenses Excluding Depreciation	4,286,196	4,277,959	8,237
Net Operating Revenues Over (Under) Operating Expense	\$2,074,380	\$1,610,741	\$463,639

Non-aeronautical revenue from parking and rental cars both exceeded budgeted expectations in 2017 by \$85,000 and \$260,000, respectively. Additionally, terminal rent was \$65,000 ahead of budget.

#### Subsequent Events Impacting Current Operations

On March 10, 2020, Colorado Governor Jared Polis declared a State of Emergency related to the presence of the Novel Coronavirus 2019 (COVID-19) in the State of Colorado. On March 11, 2020, the World Health Organization (WHO) declared the outbreak a global pandemic and on March 13, 2020, President Donald J. Trump issued a proclamation declaring the COVID-19 outbreak in the United States a national emergency. Nationally and at the state level, business activities and public gatherings have been limited and air traffic declined sharply following the declarations from the President and the WHO. The pandemic has caused a severe decline in Airport activity with national air carriers canceling more than 50% of domestic flights through the summer of 2020 and passenger numbers declining by more than 75% in April and May 2020.

Due to the severe impact of the pandemic nationwide, the President signed the Coronavirus Aid, Relief, and Economic Security (CARES) Act into law on March 27, 2020. The CARES Act included \$10 billion in funding for U.S. airports. The Authority has received a grant for \$5,679,740 in connection with the CARES Act to help supplement lost revenues from the pandemic. The Authority may seek reimbursement for any lawful purpose for four years from the date of acceptance of the grant. No impairments were recorded as of December 31, 2019 as a result of the pandemic; however, due to significant uncertainty surrounding the situation, management's judgment regarding this could change in the future.

#### Request for Information

The Authority's financial statements are designed to present interested parties (customers, tenants, creditors, and the community) with a general overview of the Authority's finances and to demonstrate the accountability to all interested parties. If you have any questions concerning this report or need additional financial information, please

December 31, 2019 and 2018

### Note 1 - Nature of Business

Grand Junction Regional Airport Authority (the "Authority") was established in 1971 under the provisions of the Public Airport Authority Act of 1965 when all assets of the city/county-owned airport were transferred to the Authority. The Authority's Board of Commissioners (the "Board") is composed of seven appointed members: three from Mesa County, Colorado; three from the City of Grand Junction, Colorado; and one at-large selection. The term of each director of the Board is four years; no member may serve more than two consecutive four-year terms.

As noted above, neither the City of Grand Junction, Colorado nor Mesa County, Colorado appoint a voting majority of the Board; however, both have signed a supplemental co-sponsorship agreement between the Authority and the Federal Aviation Administration (FAA). The co-sponsorship mandates that the City of Grand Junction, Colorado and Mesa County, Colorado would be liable for the financial commitments of the sponsor under the grant agreements should the Authority not be able to satisfy the financial commitments out of the revenue generated by the operation of the airport.

The reporting entity of the Authority includes those activities and functions over which the Authority is considered to be financially accountable. The Authority's financial statements include the accounts and operations of all of the Authority's functions. The Authority is the primary government and does not include any component units using the criteria set forth in accounting principles generally accepted in the United States of America.

The Authority is a special-purpose government engaged only in business-type activities. For this type of government, only enterprise financial statements are presented.

### Note 2 - Significant Accounting Policies

#### *Accounting and Reporting Principles*

The accompanying financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) prescribed in pronouncements of the Governmental Accounting Standards Board (GASB). The following is a summary of the significant accounting policies used by the Authority:

#### *Basis of Accounting*

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recognized when earned, and expenses are recognized when the liability is incurred. Depreciation is computed and recorded as an operating expense. Expenditures for property and equipment are shown as increases in assets. When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first with the exception of the debt service on the revenue bonds that is paid partially from the restricted passenger facility charges (PFC) and partially from operating funds.

The operations of the Authority are accounted for on a fund basis in a single enterprise fund. Enterprise funds may be used to account for operations (a) that are financed and operated in a manner similar to business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred, and/or changes in net position is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

#### *Use of Estimates*

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

December 31, 2019 and 2018

### Note 2 - Significant Accounting Policies (Continued)

#### *Specific Balances and Transactions*

##### Cash and Cash Equivalents

The Authority considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

##### Receivables

Accounts receivable are stated at invoiced amounts. An allowance for doubtful accounts is established based on a specific assessment of all invoices that remain unpaid following normal customer payment periods. In addition, a general valuation allowance is established for other accounts receivable based on historical loss experience. All amounts deemed to be uncollectible are charged against the allowance for doubtful accounts in the period that determination is made. As of December 31, 2019 and 2018, the allowance for doubtful accounts was \$24,000 and \$0, respectively.

Grants receivable represent reimbursements due from the federal government for allowable costs incurred on federal award programs.

##### Restricted Assets

The following amounts are reported as restricted assets:

- *Passenger Facility Charges* - The Authority received approval from the FAA to impose and use a PFC of \$4.50 per eligible enplaned passenger. The PFCs are restricted for use in the construction of certain airport improvements and related construction debt, as approved by the FAA. During 2007, the Authority was approved to collect PFCs to help fund airport improvement projects and was approved to collect approximately \$15,857,760 in connection with these projects. In 2018, the Authority was approved to collect an additional \$11,530,025 of PFCs for improvement projects being completed in 2018 and 2019. As of December 31, 2019 and 2018, the Authority had collected \$12,052,991 and \$11,017,476, respectively, of the approved charges, and, based on the project costs in the approved PFC applications and the estimated future PFC collection rate determined by the FAA, the Authority is approved to collect PFCs through 2036. The PFC receipts are recognized and recorded as non-operating revenue in the year collected. PFCs are paid by the carriers, with unexpended amounts reflected as a restriction of net position.
- *Revenue Bond Reserve Fund* - The debt service account is used to segregate resources authorized for use on capital projects with the 2016 bond refinancing. The bond reserve account is drawn down to reimbursement funds spent by the Authority on capital projects. Unexpended amounts are reflected as a restriction of net position.
- *Rental Car Improvements* - During 2008, the Authority began assessing a daily use fee, or customer facility charge (CFC), of up to \$3.25 per on airport rental car per day. In 2016, the CFC was increased to \$4.00 per on airport rental car per day. These funds are being used to make payments on debt and fund capital projects in on airport rental car service areas. Unexpended amounts are reflected as a restriction of net position.

##### Capital Assets

Capital assets are defined by the Authority as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, ranging from 5 to 50 years. Depreciation of construction in progress assets begins when an asset is placed in service.

**December 31, 2019 and 2018**

**Note 2 - Significant Accounting Policies (Continued)**

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

**Net Position**

Net position of the Authority is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

**Operating Revenue and Expenses**

The statement of revenue, expenses, and changes in net position distinguishes operating revenue and expenses from non-operating activity and capital contributions. Operating revenue and expenses generally result from providing services in connection with the Authority's principal ongoing operations. The principal operating revenue is charges to airline tenants for facility rentals and landing fees and revenue from passenger services, such as parking and rental cars. Operating expenses include the cost of providing services, administrative costs, repairs and maintenance of the facilities, and depreciation on capital assets.

**Non-operating Revenue and Expenses**

All revenue and expenses not meeting the above definition of operating revenue and expenses are reported as non-operating revenue and expenses or capital contributions. Such items include passenger facility charges, car rental customer facility charges, interest income and expense, and grants.

**Grants and Contributions**

Outlays for airport capital improvements are subject to reimbursement from federal grant programs through the Airport Improvement Program (AIP) of the FAA. Funds are also received for airport development from the State of Colorado. Funding provided from government grants is considered earned as the related approved capital outlays are incurred. Costs claimed for reimbursement are subject to audit and acceptance by the granting agency.

**Note 2 - Significant Accounting Policies (Continued)**

**Pension**

The Authority participates in the Local Government Division Trust Fund (LGDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The LGDTF provides retirement and disability, postretirement annual increases, and death benefits for members or their beneficiaries. The net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense have been determined using the economic resources measurement focus and the accrual basis of accounting in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*; GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*; and GASB Statement No. 82, *Pension Issues - an amendment of GASB Statement No. 67, No. 68, and No. 73*. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

**Other Postemployment Benefit Costs**

In addition to the LGDTF described above, the Authority also participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit fund administered by PERA that is considered an other postemployment benefit (OPEB). The HCTF provides a healthcare premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA healthcare plans. The net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense have been determined using the economic resources measurement focus and the accrual basis of accounting in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. For this purpose, benefits paid on behalf of healthcare participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

**Compensated Absences (Vacation and Sick Leave)**

In accordance with the vesting method provided under GASB Statement No. 16, *Accounting for Compensated Absences*, accumulated vacation and personal time is accrued based on assumptions concerning the probability that certain employees will become eligible to receive these benefits in the future.

**Budgeting Requirements**

The Authority's budgeting process is a financial planning tool used to establish the estimated revenue and expenditures for the airport. The budget is prepared by the Authority and approved by the Board in accordance with the State of Colorado's Financial Management Manual and in accordance with Colorado Revised Statutes. The initial budget is submitted to the Board by October 15, and the Authority adopts an appropriation resolution for the next fiscal year by December 31. The Board may amend the appropriation resolution at any time during the year if warranted by circumstances.

The Authority appropriates, and may not exceed appropriations, at a total fund level. Appropriations for the years ended December 31, 2019 and 2018 were \$33,033,950 and \$30,308,230, respectively.

The budget basis of accounting differs from the generally accepted accounting principles basis in that debt proceeds are included as revenue, outlays for acquisition of capital assets and debt principal payments are included as expenditures, and depreciation is not included in expenditures.

**Note 2 - Significant Accounting Policies (Continued)**

***Long-lived Assets***

The Authority reviews the recoverability of long-lived assets, including buildings and equipment, when events or changes in circumstances occur that indicate the carrying value of the asset may not be recoverable. The assessment of possible impairment is based on the ability to recover the carrying value of the asset from the expected future pretax cash flows (undiscounted and without interest charges) of the related operations. If these cash flows are less than the carrying value of such asset, an impairment loss is recognized for the difference between estimated fair value and carrying value. The measurement of impairment requires management to make estimates of these cash flows related to long-lived assets, as well as other fair value determinations.

As of December 31, 2019 and 2018, the Authority had identified an impaired asset that was considered idle due to construction stoppage. In 2014, the Authority stopped construction on an administration building that was to be part of the long-term terminal expansion. As of December 31, 2018, the Authority believed that this impairment was temporary, and, therefore, no impairment loss was recognized in the statement of revenue, expenses, and changes in net position. As of December 31, 2018, the uncompleted building had a carrying value of \$4,092,316 and was included in capital assets not subject to depreciation in the statement of net position. After reviewing cost estimates to complete the building and considering possible public-private partnerships to fund and complete construction, the Authority made a decision in 2019 to demolish the partially completed structure; therefore, the impairment was considered permanent. As of December 31, 2019, the building was written off and is not included in capital assets not subject to depreciation in the statement of net position, and an impairment loss was recognized in the statement of revenue, expenses, and changes in net position as a special item.

***Revenue Received in Advance***

During March 2017, the Authority granted a lease to the Bureau of Land Management (BLM) for use of airport land for a term of 20 years. The BLM prepaid the entire lease in the amount of \$500,000. The prepayment is reflected as revenue received in advance and is being amortized over the life of the lease in the amount of \$25,000 per year. As of December 31, 2019 and 2018, the unamortized balance was \$444,933 and \$470,000, respectively.

Terminal space rentals and land and building lease payments collected in advance are recorded as a liability and recognized into revenue in the applicable period.

***Risk Management***

The Authority is exposed to various risks of loss related to torts; errors and omissions; violations of civil rights; theft of, damage to, and destruction of assets; and natural disasters. These risks are covered by commercial insurance. There has been no significant reduction in insurance coverage, and settlement amounts have not materially exceeded coverage for the current or prior three years.

***Adoption of New Accounting Pronouncements***

As of January 1, 2019, the Authority adopted GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying and reporting fiduciary activities. As a result of implementing this standard, there were no changes in reported business fund activities that would now be reported as fiduciary activities.

As of January 1, 2019, the Authority adopted GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. This statement establishes criteria to improve the information that is disclosed in the notes to the government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. See Note 6 for related disclosures.

**Note 2 - Significant Accounting Policies (Continued)**

***Upcoming Accounting Pronouncements***

In June 2017, the GASB issued Statement No. 87, *Leases*, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The Authority is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Authority's financial statements for the year ending December 31, 2021.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which improves accounting and financial reporting for arrangements where a governmental entity contracts with an operator to provide public services by conveying control of the right to operate or use nonfinancial assets, such as infrastructure or other capital assets, for a period of time in an exchange or exchange-like transaction. It establishes the definitions of public-private and public-public partnerships (PPPs) and availability payment arrangements (APAs) and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. It requires governments to report assets and liabilities related to PPPs consistently and disclose important information about PPP transactions. The Authority is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Authority's financial statements for the year ending December 31, 2023.

In May 2020, the GASB issued Statement No. 95, *Postponement of the Effective Date of Certain Authoritative Guidance*, which provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in statements and implementation guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018 and later. The effective dates of certain provisions contained in the following pronouncements that the Authority has not yet adopted are postponed by one year: Statement No. 91, *Conduit Debt Obligations*; Statement No. 92, *Omnibus 2020*; Statement No. 93, *Replacement of Interbank Offered Rates*; Implementation Guide No. 2017-3, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (and Certain Issues Related to OPEB Plan Reporting)*; Implementation Guide No. 2018-1, *Implementation Guidance Update - 2018*; Implementation Guide No. 2019-1, *Implementation Guidance Update - 2019*; and Implementation Guide No. 2019-2, *Fiduciary Activities*. The effective dates of the following pronouncements are postponed by 18 months: Statement No. 87, *Leases*, and Implementation Guide No. 2019-3, *Leases*.

***Subsequent Events***

The financial statements and related disclosures include evaluation of events up through and including July 21, 2020, which is the date the financial statements were available to be issued.

As described in Notes 2 and 4, the Authority made a decision during 2019 to demolish a partially constructed building. The Authority entered into a construction contract in November 2019, and demolition of the building commenced in January 2020. As of the date of the report, the demolition of the building has been completed for a final contract amount of \$560,000.

**Note 2 - Significant Accounting Policies (Continued)**

On March 10, 2020, Colorado Governor Jared Polis declared a state of emergency related to the presence of the novel coronavirus (COVID-19) in the state of Colorado. On March 11, 2020, the World Health Organization (WHO) declared the outbreak a global pandemic, and, on March 13, 2020, President Donald J. Trump issued a proclamation declaring the COVID-19 outbreak in the United States a national emergency. Nationally and at the state level, business activities and public gatherings have been limited, and air traffic declined sharply following the declarations from the president and the WHO. The pandemic has caused a severe decline in airport activity with national air carriers canceling more than 50 percent of domestic flights through the summer of 2020 and passenger numbers declining by more than 75 percent in April and May 2020.

Due to the severe impact of the pandemic nationwide, the president signed the Coronavirus Aid, Relief, and Economic Security (CARES) Act into law on March 27, 2020. The CARES Act included \$10 billion in funding for U.S. airports. The Authority has received a grant for \$5,679,740 in connection with the CARES Act to help supplement lost revenue from the pandemic. The Authority may seek reimbursement for any lawful purpose for four years from the date of acceptance of the grant. No impairments were recorded as of December 31, 2019 as a result of the pandemic; however, due to significant uncertainty surrounding the situation, management's judgment regarding this could change in the future.

**Note 3 - Cash and Cash Equivalents**

Deposits and investments are reported in the financial statements as follows:

	2019	2018
Unrestricted cash and cash equivalents	\$ 4,082,138	\$ 5,433,977
Restricted cash - Passenger facility charges	2,172,391	1,901,305
Restricted cash - Rental car improvements	1,219,769	775,124
Restricted cash equivalents - Revenue bond reserve fund	4,895,168	9,214,549
Restricted cash - Rental car improvements	\$ 12,369,466	\$ 17,324,955

The Authority's cash is subject to several types of risk, which are examined in more detail below:

***Custodial Credit Risk***

Custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a deposit policy for custodial credit risk; however, the Authority's deposits are not deemed to be subject to custodial credit risk, as they are covered by federal depository insurance or are collateralized under the Public Deposit Protection Act (PDPA). At December 31, 2019 and 2018, the Authority had \$6,835,191 and \$7,957,434, respectively, of bank deposits that were in excess of Federal Deposit Insurance Corporation (FDIC) limits and are covered by PDPA collateral requirements at the financial institution.

***Interest Rate Risk***

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates.

***Concentration of Credit Risk***

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Authority places no limit on the amount the Authority may invest in any one issuer. The Authority does not have any investments subject to concentration of credit risk.

**Note 3 - Cash and Cash Equivalents (Continued)**

**Investments**

The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Colorado statutes limit authorized investments to investments having maturities of five years or less, unless the entity's governing body specifically authorizes longer maturities. Currently, the Authority has no investments.

**Fair Value Measurements**

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Authority's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The Authority did not have any investments valued with Level 1, 2, or 3 inputs at December 31, 2019 and 2018.

**Note 4 - Capital Assets**

Capital asset activity of the Authority as of December 31, 2019 is as follows:

	Balance January 1, 2019	Additions	Disposals and Adjustments	Balance December 31, 2019
Capital assets not being depreciated:				
Land	\$ 2,416,058	\$ -	\$ -	\$ 2,416,058

<b>Total</b>	<b>\$ 10,119,140</b>	<b>\$ 13,220,806</b>	<b>\$ (6,212,558)</b>	<b>\$ 17,127,388</b>

**Special Item - Asset Impairment** - As disclosed in Note 2, as of December 31, 2018, construction in progress included an uncompleted administration building with a cost basis of \$4,092,316 that was considered idle and temporarily impaired. During the year ended December 31, 2019, the impairment was no longer considered temporary, and the building was written off and is not included in capital assets as of December 31, 2019.

The Authority entered into contract on November 8, 2019 to demolish the uncompleted administration building. As of the date of the report, the demolition of the building has been completed for a final contract amount of \$560,000. See Note 2 for additional information.

**Note 5 - Accrued Expenses**

Accrued expenses for the years ended December 31, 2019 and 2018 consist of the following:

	2019	2018
Accrued vacation	\$ 154,884	\$ 142,892
Compensation and related	111,050	66,375
Interest	65,865	68,081
Other	14,462	24,652
<b>Total</b>	<b>\$ 346,261</b>	<b>\$ 302,000</b>

**December 31, 2019 and 2018**

**Note 6 - Long-term Debt**

Long-term debt activity for the years ended December 31, 2019 and 2018 can be summarized as follows:

	2019				
	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Bonds and contracts payable - Direct borrowings and direct placements:					
Revenue bonds, Series 2016A and 2016B	\$ 18,345,000	\$ -	\$ (695,000)	\$ 17,650,000	\$ 715,000
Bond premium	1,615,687	-	(191,718)	1,423,969	191,791
Colorado State Infrastructure Bank note	229,673	-	(229,673)	-	-
Capital lease	-	44,200	(9,769)	34,431	11,587
<b>Total direct borrowings and direct placements principal outstanding</b>	<b>\$ 20,190,360</b>	<b>\$ 44,200</b>	<b>\$ (1,126,160)</b>	<b>\$ 19,108,400</b>	<b>\$ 918,378</b>
	2018				
	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Bonds and contracts payable - Direct borrowings and direct placements:					
Revenue bonds, Series 2016A and 2016B	\$ 19,025,000	\$ -	\$ (680,000)	\$ 18,345,000	\$ 695,000
Bond premium	1,807,478	-	(191,791)	1,615,687	191,791
Colorado State Infrastructure Bank note	678,831	-	(449,158)	229,673	229,673
<b>Total direct borrowings and direct placements principal outstanding</b>	<b>\$ 21,511,309</b>	<b>\$ -</b>	<b>\$ (1,320,949)</b>	<b>\$ 20,190,360</b>	<b>\$ 1,116,464</b>

Interest expense consists of the following for the years ended December 31:

	2019	2018
Revenue bonds, Series 2016 A and B	\$ 808,245	\$ 826,003
Colorado State Infrastructure Bank note	2,004	14,222
Bond premium	(191,791)	(191,791)
Capital lease	1,142	-
<b>Total</b>	<b>\$ 619,600</b>	<b>\$ 648,434</b>

**2016 Bonds**

The Authority issued Airport Revenue Bonds, Series 2016A and 2016B, dated November 22, 2016, in the amount of \$19,670,000, for the purpose of refunding the 2007 Series bonds. The bonds are secured by net operating revenue by the Authority. The bonds bear interest from 2.3 percent to 5.0 percent with interest payable semiannually on June 1 and December 1, with principal payable annually on December 1 and maturing on December 1, 2036. The bonds are subject to certain restrictive covenants.

**Note 6 - Long-term Debt (Continued)**

The debt service requirements to maturity, excluding any unamortized premium, are as follows:

Years Ending December 31	Principal	Interest	Total
2020	\$ 715,000	\$ 790,375	\$ 1,505,375
2021	735,000	767,850	1,502,850
2022	765,000	738,450	1,503,450
2023	795,000	707,850	1,502,850
2024	835,000	668,100	1,503,100
2025-2029	4,845,000	2,670,500	7,515,500
2030-2034	6,100,000	1,422,000	7,522,000
2035-2036	2,860,000	151,025	3,011,025
Total	<u>\$ 17,650,000</u>	<u>\$ 7,916,150</u>	<u>\$ 25,566,150</u>

**Colorado State Infrastructure Bank Note**

The Authority borrowed \$4,000,000 from the Colorado State Infrastructure Bank on May 29, 2009 for the purpose of funding complete reconstruction of the rental car parking lot, including construction and installation of all supporting infrastructure and the design phase of the vehicle service area. The note is secured by an on-airport rental car facility fee. The note carries an interest rate of 3 percent and is to be paid in quarterly installments of principal and interest of \$116,122 through June 2019. The note is paid in full as of December 31, 2019.

**Capital Lease**

The Authority entered into a vehicle lease agreement with GM Financial on May 17, 2019. The finance agreement is secured by a vehicle with a net book value of \$40,730 as of December 31, 2019 and carries an interest rate of 7.7 percent. The lease payments are paid in annual installments of principal and interest of \$11,965 through May 2022.

	Principal	Interest	Total
2020	\$ 11,587	\$ 378	\$ 11,965
2021	11,434	532	11,966
2022	11,410	678	12,088
Total	<u>\$ 34,431</u>	<u>\$ 1,588</u>	<u>\$ 36,019</u>

**Revenue Pledged**

The Authority has pledged substantially all of the net operating revenue of the Authority, net of operating expenses (before depreciation), to repay the Series 2016A and 2016B bonds. Proceeds from the bonds were used for the refunding of the 2007 Series bonds, which were primarily used in financing for the construction of Walker Field Road improvements. The bonds are payable solely from the net revenue of the Authority. The remaining principal and interest to be paid on the bonds is \$25,566,150 and \$27,071,033 as of December 31, 2019 and 2018, respectively. For the year ended December 31, 2019, net revenue of the Authority pledged for debt service was approximately \$2,508,000 compared to the annual debt requirements of \$1,505,183. For the year ended December 31, 2018, net revenue of the Authority pledged for debt service was approximately \$1,929,000 compared to the annual debt requirements of \$1,507,523.

**Note 7 - Future Rental Revenue**

The Authority leases a portion of its property under noncancelable operating lease agreements for airline operations, concessions, and other commercial and private purposes.

The following is a summary of approximate future minimum rental payments to be received under noncancelable operating leases:

<u>Years Ending</u>	<u>Amount</u>
2020	\$ 1,271,013
2021	677,046
2022	482,070
2023	450,457
2024	381,141
Thereafter	<u>812,424</u>
Total	<u>\$ 4,074,151</u>

**Note 8 - Concession Agreements**

In April 2011, the Authority renewed an agreement with Republic Parking Inc. (Republic), a privately held corporation, under which Republic will operate, maintain, and retain fees from the airport's terminal building public parking areas through March 2016. In January 2016, the agreement was extended for one additional five-year term, terminating on March 31, 2021 at the mutual agreement of the Authority and Republic. Republic is required to operate and maintain the public parking areas in accordance with the Parking Lot Operating Agreement (the "Agreement"); the Agreement also regulates the parking rates and fees that may be charged. In consideration of its operating rights hereunder, Republic shall pay the Authority the greater of (a) the applicable percentage of annual gross revenue or (b) the minimum annual guarantees for each year the Agreement is in effect as amended. The term "applicable percentage of annual gross revenue" means 80.45 percent of gross revenue from \$0 up to and including \$500,000 plus 91.50 percent of gross revenue in excess of \$500,000. The term "minimum annual guarantees" means for each year the Agreement is in effect, as amended, and the guarantees shall be \$350,000 each year.

In May 2015, the Authority renewed agreements with various rental car companies or concessionaires, under which the rental car companies are granted the right to operate and retain fees from a nonexclusive rental car concession from the Authority, lease motor vehicles from the rental car office and ticket counter area located in the airport terminal building assigned to the respective companies, and to park and store motor vehicles owned or leased by it in the parking lot spaces assigned to the respective companies through April 2022. The rental car companies are required to operate and maintain the rental car areas in accordance with the Airport Facilities Lease and Rental Car Concession Agreement. In consideration of its operating rights hereunder, the rental car companies shall pay the Authority the guaranteed minimum concession fee set forth for each period of the concession term set forth on the bid proposal or 10 percent of their gross revenue for each such period of the concession term, whichever amount is greater. For each of the subsequent years of the concession term, the annual guaranteed minimum concession shall be the year-one MAG or 85 percent of 10 percent of their previous contract year's annual gross revenue, whichever is greater.

In May 2016, the Authority entered into a service agreement with a concession company. Under the agreement, the company is granted the right to operate a restaurant and retail space in the airport through April 30, 2021, with an option to extend the term of the contract by two additional one-year terms. In consideration of its operating rights, the company shall pay the Authority the guaranteed minimum annual fee of \$60,000, prorated monthly, or a graduated percentage of gross revenue for each such period of the concession term, whichever is the greater amount.

December 31, 2019 and 2018

### Note 8 - Concession Agreements (Continued)

In 2019, the minimum concession fees were approximately \$1,298,000, which includes minimum concession fees from rental car companies, Republic, and a concession company of approximately \$888,000, \$350,000, and \$60,000, respectively. In 2018, the minimum concession fees were approximately \$1,140,000, which includes minimum concession fees from rental car companies, Republic, and a concession company of approximately \$730,000, \$350,000, and \$60,000, respectively.

According to the rental car contracts and the concessionaire contract for restaurant and retail services, the minimum annual guarantee will be temporarily suspended if the number of revenue passengers for a period of two consecutive calendar months is less than 75 percent of the average number of passengers in the same two calendar months of the preceding calendar year. As a result of COVID-19, which has significantly reduced passenger traffic in 2020, the minimum annual guarantee has been temporarily suspended in 2020.

### Note 9 - Pension Plans

#### *Plan Description*

The Authority participates in the LGDTF, a cost-sharing multiple-employer defined benefit pension fund administered by PERA. Plan benefits are specified in Title 24 of the Colorado Revised Statutes (CRS) and applicable provisions of the federal Internal Revenue Code. Colorado state law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available Comprehensive Annual Financial Report that includes financial statements and required supplemental information for the LGDTF that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports). The report can also be obtained by writing to Colorado PERA, 1301 Pennsylvania Street, Denver, CO 80203 or by calling PERA at 1-800-759-PERA (7372) or 303-832-9550.

The LGDTF provides retirement, disability, and survivor benefits for members or their beneficiaries. Retirement benefits are based upon a number of factors including retirement age, years of credited service, and highest average salary. Retirement eligibility is specified in tables set forth in the Colorado Revised Statutes. The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is generally the greater of the following:

- Highest average salary multiplied by 2.5 percent and then multiplied by the credited years of service
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases, the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code. Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers, waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether five years of service credit has been obtained, and the benefit structure under which contributions were made.

Disability benefits are available for eligible employees once they reach five years of earned service credit and meet the definition of a disability. These benefits are divided into a two-tier disability program consisting of a short-term disability program and a disability retirement benefit. At benefit commencement, the member can choose from different payment options, some of which can continue after the retiree's death to a named beneficiary, and for which the benefit amount is appropriately adjusted. Generally, the disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

**Note 9 - Pension Plans (Continued)**

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure under which service credit was obtained, and the qualified survivor who will receive the benefits.

**Funding Policy**

Eligible employees and the Authority are required to contribute to the LGDTF at a rate set by Colorado statute. The contribution requirements of plan members and the Authority are established under Title 24, Article 51, Part 4 of the CRS, as amended. The contribution rate is 8.00 percent of covered salary for eligible employees. The Authority's contribution requirements as a percentage of employee salaries for the years ended December 31, 2019 and 2018 are summarized in the table below:

Employer contribution rate apportioned to the LGDTF	8.98 %
Amortization equalization disbursement (AED)	2.20
Supplemental amortization equalization disbursement (SAED)	<u>1.50</u>
Total employer contribution rate to the LGDTF	<u><u>12.68 %</u></u>

The Authority's contributions are recognized by the LGDTF in the period in which the compensation becomes payable to the member and the Authority is statutorily committed to pay the contributions to the LGDTF. The Authority's contributions to LGDTF for the years ended December 31, 2019 and 2018 were \$183,815 and \$182,848, respectively.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At December 31, 2019 and 2018, the Authority reported a liability of \$2,778,666 and \$2,545,148, respectively, for its proportionate share of the net pension liability. The net pension liability as of December 31, 2019 and 2018 was measured as of December 31, 2018 and 2017, respectively, and the total pension liability used to calculate the net pension liability was determined as of December 31, 2018 and 2017, respectively, using standard roll-forward techniques in actuarial valuations as of December 31, 2017 and 2016, respectively. The Authority's proportion of the net pension liability for the years ended December 31, 2019 and 2018 was based on the Authority's contributions to the LGDTF for the calendar years 2018 and 2017, respectively, relative to the total contributions of participating employers to the LGDTF. At December 31, 2018, the Authority's proportion was 0.2210 percent, which was a decrease of 0.0076 percent from its proportion measured as of December 31, 2017. At December 31, 2017, the Authority's proportion was 0.2286 percent, which is an increase of 0.0036 percent from its proportion measured as of December 31, 2016. For the years ended December 31, 2019 and 2018, the Authority recognized pension (recovery) expense of \$(278,834) and \$495,132, respectively.

**Note 9 - Pension Plans (Continued)**

The Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2019		2018	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 116,185	\$ -	\$ 159,222	\$ -
Changes in assumptions	-	-	26,886	-
Net difference between projected and actual earnings on pension plan investments	361,862	-	-	494,716
Changes in proportionate share or difference between amount contributed and proportionate share of contributions	2,552	56,766	22,425	20,253
Employer contributions to the plan subsequent to the measurement date	213,447	-	183,815	-
<b>Total</b>	<b>\$ 694,046</b>	<b>\$ 56,766</b>	<b>\$ 392,348</b>	<b>\$ 514,969</b>

Deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date of \$213,447 and \$183,815 will be recognized as a reduction of the net pension liability in the years ending December 31, 2019 and 2018, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending December 31	Amount
2020	\$ 83,562
2021	108,336
2022	89,677
2023	72,372
2024	69,886
<b>Total</b>	<b>\$ 423,833</b>

**Note 9 - Pension Plans (Continued)**

**Actuarial Assumptions**

The total pension liability in the December 31, 2017 and 2016 actuarial valuations was determined using the following actuarial cost method, actuarial assumptions, and other inputs:

	LGDTF
Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases (including inflation)	3.50 - 10.45 percent
Long-term investment rate of return (net of plan investment expenses, including price inflation)	7.25 percent
Discount rate	7.25 percent
Postretirement benefit increases:	
PERA benefit structure hired prior to January 1, 2007 and DPS benefit structure (automatic)	2.00 percent compounded annually
PERA benefit structure hired after December 31, 2006 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, postretirement mortality assumptions reflect the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males - Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females - Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016 valuation were based on the results of the 2016 experience analysis for the period from January 1, 2012 through December 31, 2015, as well as the October 28, 2016 actuarial assumptions workshop, and were adopted by the PERA board during the November 18, 2016 board meeting.

**Discount Rate**

The discount rate used to measure the total pension liability was 7.25 percent for the years ended December 31, 2019 and 2018. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50 percent.

**Note 9 - Pension Plans (Continued)**

- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree healthcare benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc postretirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the single equivalent interest rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the LGDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and, therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

***Investment Rate of Return***

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the LGDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

**Note 9 - Pension Plans (Continued)**

As of the most recent adoption of the long-term expected rate of return by the PERA board, the target asset allocation and best estimates of geometric real rates of return for each major asset class for December 31, 2019 and 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
U.S. equity - Large cap	21.20 %	4.30 %
Core fixed income	19.32	1.20
Non-U.S. equity - Developed	18.55	5.20
Core real estate	8.50	4.90
Private equity	8.50	6.60
U.S. equity - Small cap	7.42	4.80
Opportunity fund	6.00	3.80
Non-U.S. equity - Emerging	5.83	5.40
Non-U.S. fixed income - Developed	1.84	0.60
High yield	1.38	4.30
Cash	1.00	0.20
Emerging market debt	0.46	3.80

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate**

The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25 percent) or 1 percentage point higher (8.25 percent) than the current rate:

	1 Percentage Point Decrease	Current Discount Rate	1 Percentage Point Increase
Authority's proportionate share of the net pension liability as of December 31, 2019	\$ 4,250,785	\$ 2,778,666	\$ 1,547,090
Authority's proportionate share of the net pension liability as of December 31, 2018	4,053,595	2,545,148	1,287,640

Detailed information about the pension plan's fiduciary net position is available in PERA's Comprehensive Annual Financial Report, which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**Changes between the Measurement Date of the Net Pension Liability and December 31, 2018**

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: *Concerning Modifications to the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan within the Next Thirty Years*. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next 30 years. Some of the major changes to plan provisions include modification of the retirement benefits, changes to future member and employer contributions, and expanded eligibility to participate in the defined contribution plan as an alternative to the defined benefit plan. The full bill can be found online at [www.leg.colorado.gov](http://www.leg.colorado.gov).

**Note 9 - Pension Plans (Continued)**

During the 2019 legislative session, the Colorado General Assembly passed HB 19-1217: *PERA Public Employees' Retirement Association Local Government Division Member Contribution Rate*. The bill was signed into law by Governor Polis on May 20, 2019 and eliminates the 2 percent increase in the contribution rate for members in the Local Government Division mandated by SB 18-200.

As of December 31, 2019 and 2018, the Authority has not estimated the change in its proportionate share of the net pension liability as a result of these changes had the bill become law on December 31, 2017.

**Note 10 - Other Postemployment Benefit Plan**

***Plan Description***

In addition to the defined benefit pension plan, employees of the Authority are provided with OPEB through the HCTF, a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF provides a healthcare premium subsidy to eligible PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the CRS, as amended, assigns the authority to establish the HCTF benefit provisions to the PERA board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado state law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available Comprehensive Annual Financial Report that includes financial statements and required supplemental information for the HCTF. That report may be obtained online at [www.copera.org](http://www.copera.org); by writing to Colorado PERA, 1301 Pennsylvania Street, Denver, CO 80203; or by calling PERA at 1-800-759-PERA (7372) or 303-832-9550

***Benefits Provided***

The HCTF provides a healthcare premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA healthcare plans; however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The healthcare premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit.

Enrollment in PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) (the "CRS") provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B, and the difference in premium cost is paid by the HCTF on behalf of benefit recipients not covered by Medicare Part A.

December 31, 2019 and 2018

**Note 10 - Other Postemployment Benefit Plan (Continued)**

**Contributions**

In accordance with the CRS, certain contributions are apportioned to the HCTF. The Authority is required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF. Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Authority is statutorily committed to pay the contributions. The Authority's contributions to the HCTF for the years ended December 31, 2019 and 2018 were \$14,786 and \$14,708, respectively.

**Net OPEB Liability**

At December 31, 2019 and 2018, the Authority reported a liability of \$233,195 and \$230,836, respectively, for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2018 and 2017, respectively, and the total OPEB liability used to calculate the net OPEB liability was determined by actuarial valuations as of December 31, 2017 and 2016, respectively. Standard update procedures were used to roll forward the total OPEB liability to December 31, 2018 and 2017.

The Authority's proportion of the net OPEB liability for the years ended December 31, 2019 and 2018 was based on the Authority's contributions to the HCTF for the calendar years 2018 and 2017, respectively, relative to the total contributions of participating employers to the HCTF. At December 31, 2018, the Authority's proportion was 0.01714 percent, which was a decrease of 0.0006 percent from its proportion measured as of December 31, 2017. At December 31, 2017, the Authority's proportion was 0.01776 percent, which was an increase of 0.0005 percent from its proportion measured as of December 31, 2016.

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the years ended December 31, 2019 and 2018, the Authority recognized OPEB expense of \$18,807 and \$19,101, respectively.

At December 31, 2019 and 2018, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2019		2018	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 846	\$ 355	\$ 1,092	\$ -
Changes in assumptions	1,636	-	-	-
Net difference between projected and actual earnings on OPEB plan investments	1,341	-	-	3,862
Changes in proportionate share or difference between amount contributed and proportionate share of contributions	4,245	6,902	5,283	40
Employer contributions to the plan subsequent to the measurement date	17,170	-	14,786	-
<b>Total</b>	<b>\$ 25,238</b>	<b>\$ 7,257</b>	<b>\$ 21,161</b>	<b>\$ 3,902</b>

**Note 10 - Other Postemployment Benefit Plan (Continued)**

Deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date of \$14,746 and \$14,708, respectively, will be recognized as a reduction of the net pension liability in the years ending December 31, 2019 and 2018, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years Ending December 31	Amount
2020	\$ 303
2021	303
2022	303
2023	303
2024	(769)
Thereafter	368
Total	<u>\$ 811</u>

**Actuarial Assumptions**

The total OPEB liability in the December 31, 2017 and 2016 actuarial valuations was determined using the following actuarial cost method, actuarial assumptions, and other inputs:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2018	5.00 %	3.25 %
2019	5.00	3.50
2020	5.00	3.75
2021	5.00	4.00
2022	5.00	4.25
2023	5.00	4.50
2024	5.00	4.75
2025+	5.00	5.00

The HCTF utilizes the same mortality assumptions as the LGDTF. The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita healthcare costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the "No Part A Subsidy" when they retire were revised to more closely reflect actual experience.

December 31, 2019 and 2018

**Note 10 - Other Postemployment Benefit Plan (Continued)**

- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, were revised to more closely reflect actual experience.
- The healthcare cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2017 and 2016 valuations were based on the results of the 2016 experience analysis for the period from January 1, 2012 through December 31, 2015, as well as the October 28, 2016 actuarial assumptions workshop, and were adopted by the PERA board during the November 18, 2016 board meeting. In addition, certain actuarial assumptions pertaining to per capita healthcare costs and their related trends are analyzed and reviewed by PERA’s actuary, as needed.

***Discount Rate***

The discount rate used to measure the total OPEB liability was 7.25 percent at December 31, 2019 and 2018. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated healthcare cost trend rates for Medicare Part A premiums as of the December 31, 2017 measurement date
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF’s fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and, therefore, the discount rate is 7.25 percent.

December 31, 2019 and 2018

**Note 10 - Other Postemployment Benefit Plan (Continued)**

***Investment Rate of Return***

The long-term expected return on OPEB plan investments is the same as the long-term expected return on the LGDTF investments described above and is reviewed as part of regular experience studies prepared every four or five years for PERA.

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

***Sensitivity of the Net OPEB Liability to Changes in the Discount Rate***

The following presents the proportionate share of the net OPEB liability of the Authority, calculated using the discount rate of 7.25 percent, as well as what the Authority's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percentage Point Decrease (6.25%)	Current Discount Rate (7.25%)	1 Percentage Point Increase (8.25%)
Proportionate share of the net OPEB liability as of December 31, 2019	\$ 260,924	\$ 233,195	\$ 209,488
Proportionate share of the net OPEB liability as of December 31, 2018	259,532	230,836	206,343

***Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate***

The following presents the proportionate share of the net OPEB liability of the Authority, calculated using the current healthcare cost trend rates applicable to the PERA benefit structure, as well as what the Authority's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current rates:

	1 Percentage Point Decrease in Trend Rates	Current Healthcare Cost Trend Rates	1 Percentage Point Increase in Trend Rates
Net OPEB liability as of December 31, 2019	\$ 226,775	\$ 233,195	\$ 240,600
Net OPEB liability as of December 31, 2018	224,484	230,836	238,485

**Note 11 - Defined Contribution Pension Plan**

Employees of the Authority that are also members of the LGDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the CRS, as amended, assigns the authority to establish the plan provisions to the PERA board of trustees. PERA issues a publicly available CAFR, which includes additional information on the Voluntary Investment Program. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the CRS, as amended. In addition, the Authority has agreed to match employee contributions up to 4 percent of covered salary as determined by the Internal Revenue Service. Employees are immediately vested in their own contributions, employer contributions, and investment earnings. For the years ended December 31, 2019 and 2018, the Authority made matching contributions of \$43,940 and \$31,420, respectively.

**December 31, 2019 and 2018**

**Note 12 - Commitments**

***Tax, Spending, and Debt Limitations***

In November 1992, voters passed an amendment to the Constitution of the State of Colorado, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment excludes enterprises from its provisions. Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10 percent of their annual revenue in grants from all state and local governments combined, are excluded from the provisions of the amendment. It is the Authority's opinion that it qualifies for the exclusion and is, therefore, excluded from the provisions of the amendment.

***Federally Assisted Grant Programs***

The Authority participates in federally assisted grant programs. These programs are subject to the provisions of the Single Audit Act of 1996 and the Uniform Grant Guidance. The amount, if any, of expenditures that may be disallowed by the granting agency cannot be determined at this time, although the Authority expects such amounts, if any, to be immaterial.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of  
Financial Statements Performed in Accordance with *Government Auditing Standards*

**Independent Auditor's Report**

To Management and the Board of Commissioners  
Grand Junction Regional Airport Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Grand Junction Regional Airport Authority (the "Authority") as of and for the year ended December 31, 2019 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated July 21, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Board of Commissioners  
Grand Junction Regional Airport Authority

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Plante & Moran, PLLC*

July 21, 2020

Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance as  
Required by the Uniform Guidance

**Independent Auditor's Report**

To the Board of Commissioners  
Grand Junction Regional Airport Authority

**Report on Compliance for Each Major Federal Program**

We have audited Grand Junction Regional Airport Authority's (the "Authority") compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on the Authority's major federal program for the year ended December 31, 2019. The Authority's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the Authority's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

***Opinion on Each Major Federal Program***

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program for the year ended December 31, 2019.

**Report on Internal Control Over Compliance**

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

To the Board of Commissioners  
Grand Junction Regional Airport Authority

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Notes to Schedule of Expenditures of Federal Awards**

---

**Year Ended December 31, 2019**

**Note 1 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Grand Junction Regional Airport Authority (the "Authority") under programs of the federal government for the year ended December 31, 2019. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

**Note 2 - Summary of Significant Accounting Policies**

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

The Authority has elected not to use the 10 percent *de minimis* indirect cost rate to recover indirect costs, as allowed under the Uniform Guidance.

Report on Compliance for the Passenger Facility Charge Program; Report on Internal Control Over Compliance  
as Required by the *Passenger Facility Charge Audit Guide for Public Agencies*

### Independent Auditor's Report

To the Board of Commissioners  
Grand Junction Regional Airport Authority

#### Report on Compliance for the Passenger Facility Charge Program

We have audited Grand Junction Regional Airport Authority's (the "Authority") compliance with the types of compliance requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration (the "Guide"), as of and for the year ended December 31, 2019. The passenger facility charge program is identified in the schedule of passenger facility charges.

#### **Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, contracts, and grants applicable to the passenger facility charge program.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for the Authority's passenger facility charge program based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements in the Guide. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the passenger facility charge program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the passenger facility charge program. However, our audit does not provide a legal determination of the Authority's compliance.

#### **Opinion on the Passenger Facility Charge Program**

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its passenger facility charge program for the year ended December 31, 2019.

#### Report on Internal Control Over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on the passenger facility charge program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the passenger facility charge program and to test and report on internal control over compliance in accordance with the Guide, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

To the Board of Commissioners  
Grand Junction Regional Airport Authority

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of the passenger facility charge program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of the passenger facility charge program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of the passenger facility charge program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *Passenger Facility Charge Audit Guide for Public Agencies*. Accordingly, this report is not suitable for any other purpose.

## Schedule of Passenger Facility Charges

---

For the Year Ended December 31, 2019

Grantor/Program	Approved Application Numbers	Unliquidated Passenger Facility Charges at December 31, 2018	Passenger Facility Charge Revenue	Expenditures	Unliquidated Passenger Facility Charges at December 31, 2019
Passenger facility charges	06-07-C-02-GJT, 18-08-C-00-GJT	\$ 1,901,305	\$ 1,035,425	\$ (764,522)	\$ 2,172,208

See accompanying notes to schedule of expenditures of passenger facility charges

**Notes to Schedule of Passenger Facility Charges**

---

**Year Ended December 31, 2019**

**Note 1 - Basis of Presentation**

The accompanying schedule of passenger facility charges includes agreements entered into directly between Grand Junction Regional Airport Authority (the "Authority") and the Federal Aviation Administration (FAA). The information in this schedule is prepared on the accrual basis of accounting and is presented in accordance with the provisions of the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the FAA in September 2000.

**Note 2 - Passenger Facility Charges**

Revenue consists of passenger facility fees and investment earnings on restricted cash related to passenger facility charges. Expenditures represent principal, which is payments made by the Authority on the revenue bonds that were used to finance the construction of certain airport improvements. Unliquidated passenger facility charges represent the net restricted cash and passenger facility fees receivable and accounts payable as of year end.
